A little About Us

BeLive was founded in 2017 with a mission to create products that are delicious but also nutritious. The idea of swallowing a pill or capsule doesn't sound very exciting.

BeLive is here to make "living healthy" exciting, fun, and effortless! You'll never forget to take your supplements again.

BeLive Gummies have superior potent formulas, healthier sugar substitutes, and gummy texture without the melty & sticky feel to ensure you and your loved ones have a great experience!
